04/30/09 23:59 CST 0.43M

Severe Drought continued to be observed across much of the northwestern third of north Texas according to the U.S. Drought Monitor. In the southern counties of north Texas, Severe to Extreme Drought continued to be observed and the Extreme Drought expanded further north during the first half of the month. A freeze in the beginning of April had detrimental impacts to some wheat crops in the region. However, beneficial rainfall during the month brought relief to the southern counties of north Texas and significant improvement was observed by the end of the month. A few days of significant grass fire activity occurred during this month and Burn Bans were enacted as a result. During the month, 17 counties had Burn Bans.

Drought

04/02/09 18:00 CST 0

A strong low pressure system moving across Oklahoma resulted in strong west and northwest winds across north Texas. Sustained winds of 20 to 35 mph with gusts up to 50 mph were common across the region. Scattered tree damage was reported across north Texas, thousands of power outages were caused by downed power lines and trees in power lines, and hundreds of airplanes were grounded or delayed at DFW Airport. Approximately 11,600 customers in north Texas were left without power.

04/12/09 23:59 CST 2 1.35M

Dry and windy conditions resulted in explosive fire conditions in north Texas on this day. Some wildfires were rekindled fires that had been smoldering from earlier in the week. These wildfires burned tens of thousands of acres, multiple structures, and killed cattle. Two fatalities occurred in Stoenburg as a couple tried to protect their home. Several of the fires were being fought or watched until April 11th and 12th when rain brought relief to parts of north Texas.

Part of the roof was removed from the Lee Academy on West 4th Avenue. On the same street, crepe myrtle and pecan trees were uprooted. Other buildings damaged included the Sonic and Shell Food Mart. Additional trees and large tree limbs were down along the path of the tornado and damage was also sustained to fences, awnings and power poles. Maximum winds were estimated to be 90 mph. One teacher at Lee Academy sustained minor injuries. HENDERSON COUNTY --- 2.7 SSW MABANK [32.33, -96.12] Thunderstorm Wind (EG 50 kt) 3K 04/27/09 08:05 CST 04/27/09 08:05 CST 0 Source: Newspaper

Straight line winds blew out windows on 6 cars at the Kemp ISD Administration Building, damaged buildings and downed power poles and large trees up to 4 feet in diameter. Several large trees were snapped at the cemetery. At Kemp High School, the air conditioning units on the roof were damaged and the ceiling was torn off the band hall. The power was knocked out in several places in Kemp.

The bleachers at Gun Barrel City's Tommy Smith Softball Fields were torn apart during high winds.
